

DELUXE PERCHING / KITCHEN / SHOWER STOOLS. EXTRA STANDARD

This new range of perching stools features the latest in hygienic, flame retardant, polyurethane upholstery. The registered designed seats have been health positive ergonomically designed to provide correct pressure distribution, posture and ultimate comfort.

The unique anthropometrically shaped seat profile ensures that these seats are the most comfortable and slip resistant available – ideal for bathroom, shower or kitchen use.

Manufactured in preferred high grade tensile steel in the United Kingdom with a tough peel resistant plastic coating, all models have slightly angled seats to enable the user to sit and rise with greater ease, and feature front to back bracing struts for additional strength.

Upholstery contains hygienilac which makes them resistant to MRSA and other microbiological contaminants.

Seat Size
14¹/₄" x 11"
(363mm x 280mm)

Code 702
Adjustable Height
