

STAIR RAILS

Norfolk rails enable an extra handrail to be fitted on the opposite side to an existing rail. The user can hold both rails for added safety whilst ascending or descending the stairs.

Code 112 Norfolk Stair Rail Support with 2 Stem Flanges

Peel resistant plastic coated tubular stair support rails which incorporate a moveable head flange (for any angle and position) and either 2 or 3 stem flange fittings depending on requirements. Each flange has 3 fixing holes.

Code 113 Norfolk Stair Rail Support with 3 Stem Flanges

Dimensions:-
Overall height 880mm
Tube diameter 26mm
