MOBILE COMMODES

Code 168 Markfield Mobile Commode

Manufactured from plastic coated steel tubing, this very robust stylish product is supplied with a comfortable cellular moulded commode seat, backrest, over seat, and padded detachable armrests. A plastic rota moulded detachable footrest is an added option.

A pushing handle, commode bowl, and two 5" (12cm) brake and plain castors are supplied as standard. The castors are bolted to the frame for added safety.

If 4 brake castors are required use code **168(4)**

This product has been designed for re-usability/re-issue.

168 GF

Code 168 GF

As the Markfield above, but with a gap-fronted (cut-out) commode seat which facilitates personal hygiene.

If 4 brake castors are required use code **168(4) GF**
