

## TROLLEYS

The original market leader comprehensively updated with hygienic tough plastic injection moulded trays with 4 lips, incorporating a protective crumb-trap prevent edge, ensuring total re-usability / re-issue.

### Code 275 Rutland Adjustable Trolley Walker

Designed by Welland in conjunction with the Red Cross Medical Aid Department in Leicester. This market leader is a very robust, all welded plastic coated steel design, with angled sides to provide safe hand grips and instill user confidence. The strong (registered design) shelves are plastic injection moulded and each has 4 raised edges and the bottom shelf is set forward for ease of walking and dining. The trolley has 4 large 4" (100mm) castors as standard and an adjustment range of 33" to 39" (840 to 990mm)

#### Dimensions:-

Shelf size 12" x 16" (310 x 405mm)

Overall width 18" (455mm)

Overall depth 19" (480mm)

### Code 278 Medbourne Compact Trolley

Tough, compact metal trolley. All welded plastic coated 1" square steel tubing. Based on the traditional wooden design, it has the bottom shelf set forward for easy walking. Each shelf has a retaining strip at the front. Available with 3" (75mm) or 4" (100mm) castors.

**Code 278 (3)** 3" (75mm) Castors

**Code 278 (4)** 4" (100mm) Castors

#### Dimensions:-

Width 15" (380mm) Height 37" (940mm)

Depth 16" (405mm)
